IN THE NAME OF

THE UNIVERSAL PARLIAMENT

THE UNIVERSAL PARLIAMENT

STAY INFORMED. STAY CONNECTED. BUILD.

In The Name of Allah, the man who came to the aid of the young when others had forsaken them. Our efforts today, are a direct reflection and continuation of what his determined idea was, is and will always be. It is our job to reach and teach those who aren't a fit for any other schools of thought. Those who find solace in knowing who they are, understanding self, others and the world around them and teaching and forging a path for present and future generations to come. PEACE!!!

The Universal Parliament has always been a meeting of the minds. A place where all minds become one by making knowledge born, addressing the needs of our Nation, and determining how we move forward. Our website provides a way to stay connected and carry that work beyond the day of the Parliament.

I encourage each of you to visit **theuniversalparliament.com**, become familiar with the content, and take part in what we are building.

I also encourage you all to share this with any and all you deem will benefit or wish to participate. As the saying goes, sharing is caring so SHARE! SHARE! SHARE!

OUR PURPOSE AND TEACHINGS

Learn about the history of the Universal Parliament, what we teach, and what we will achieve. These are the principles that guide our work, our responsibility to one another, and our responsibility to the generations coming behind us.

PARLIAMENT AND THE A.W.M. CALENDAR

Use the Parliament section to review the agenda and check gathering details and RSVP availability. The ALLAH WORLD MANIFEST CALENDAR brings together historical dates and published Parliament dates. Stay informed about the matters before us, including Parliamentary Procedure, Regional Representation, community outreach, and ALLAH SCHOOL IN MECCA.

CLASSROOM AND GYMNASIUM WORKSHOPS

Each one should teach one according to their knowledge. If you have a skill, experience, or a workshop you would like to lead, submit an instructor application through the Classroom or Gymnasium section. Participant registration will open as sessions are confirmed. Let us put what we know to use for the benefit of the whole.

CHILDREN'S CORNER

Our children should have a voice in what we plan for them. Children's Corner gives them a place to share ideas for field trips, workshops, gym activities, presentations, arts, science, and more. Parents and guardians, sit with the babies and encourage them to tell us what they would like to do, learn, create, and explore. Their ideas matter.

HE OR HER RESOURCES

This section provides a direct way to share suggestions, concerns, complaints, and questions. You may submit anonymously or leave your contact information if you would like a response. Let us communicate clearly, respectfully, and with the intention of making things better.

PARLIAMENT RECAP

WHAT WE COVERED AND WHERE WE GO FROM HERE

At the Parliament, we covered much of the agenda in detail. Here is what we still need to cover: ALLAH SCHOOL IN MECCA, the Revitalization Project, the Office of Cultural Management, and the Regionalization of the Nation. These topics will be addressed through a Zoom call or follow-up newsletters from the respective entities.

THE AGENDA

1. The permit issue for the proposed new location.
2. Behavior and rules of conduct.
3. Parliamentary Procedure.
4. The new website.
5. Classroom and Gymnasium workshops for instructors and participants.
6. Food at the Parliament.
7. Monthly Parliament themes.
8. The November Family Feast.
9. Community outreach, including the December Toy and Coat Drive.
10. Field trip opportunities.
11. Regionalization of the Nation.
12. ALLAH SCHOOL IN MECCA, the Revitalization Project, and the Office of Cultural Management.

CARING FOR ALLAH SCHOOL IN MECCA NOW

The current state and appearance of our ALLAH SCHOOL IN MECCA deserve our collective attention. While we await the larger Revitalization Project, let us come together to identify what can be refreshed now. A coordinated cleanup, fresh paint where needed, and attention to the spaces we share are practical ways the Nation can contribute. Those with skills, time, materials, or resources can help us organize that work with those responsible for the School. We should determine the immediate needs together and agree on the work before it begins.

CONTINUING THE DISCUSSION

We will use a Zoom call or a follow-up newsletter to address ALLAH SCHOOL IN MECCA, the Revitalization Project, the Office of Cultural Management, and the Regionalization of the Nation in greater detail. We will also address how to organize the immediate refresh and seek clarity on the attached storefront at ALLAH SCHOOL IN MECCA: What is its current status? What, if anything, is holding it up? What is the plan for its use and the next steps? These matters deserve the time and attention needed to go through them in detail.

Visit the website. Share it with the Nation. Bring your ideas, your skills, and your willingness to contribute. What we build together should reflect the needs of our people and give our children something to belong to, something to be proud of, and something to look forward to.

In Service of our Nation,
Knowledge Everlasting Allah
Hon. Knowledge Bennett
